Subject: Subscription ID and Password
Date: 07/21/2011 05:31 PM

Eric and Melissa,

How do I get a subscription ID and password so that I can see the existing data in the Las Conchas Wildfires "Project." It appears the path to the data is through the scribe front end software dropdown list at File/Scribe.net/Subscribe.

If this is the way we can see the data* before it is published I will need my peers and supervisors to have access.

Thanks.

*I mean all of the project data, not just the data we have uploaded which, obviously, I've already seen.
